

FOSTER CONTRACTING LIMITED

ENVIRONMENTAL POLICY

Foster Contracting Limited recognises its responsibility to protect the environment as a specialist supplier and installer of geotextiles and composites within the road surfacing industry. This statement is a declaration of our intent to ensure we adequately manage our works, prevent pollution and continually improve the operation and environmental management of our activities.

This policy will be made available to all interested parties and members of the public upon request and will be implemented by adopting the following main principles in a proactive manner. FCL will:

- Comply with relevant legislation, client and other requirements that apply to all our work activities as a minimum.
- Communicate with our shareholders to ensure minimal environmental impact and, where possible, environmental enhancement.
- Set measurable and realistic environmental objectives and targets to improve the environmental performance across the business.
- Operate and implement FCL's SHE procedures.
- Identify and implement the training needs of all our employees, to raise environmental awareness across the business.
- Source environmentally sustainable materials, reduce our waste and consumption of energy and raw materials and maximise opportunities to recycle where possible.
- Promote high environmental standards and the use of environmental best practices throughout the business.

The Executive Board is responsible for the management of environmental issues and the implementation of this policy and will ensure appropriate resources are available.

Both this policy and our environmental performance will be reviewed on an annual basis

Date: 1st June 2010

Signed:

T J W Foster – Managing Director
